# THE NEXT LEVEL OF NEW CVD TURNING GRADES

**YGTURN** » INTRODUCTORY OFFER

Valid from **June 1** to **October 31, 2025**

**NEW**

**YG3125**

New CVD Turning Grade  
for **STEELS**

**YG3115**

CVD Turning Grade for  
**STEELS**

Any YG3125 or YG3115 iC 4 or smaller is **\$5.99**

Any YG3125 or YG3115 iC 5 or iC6 is **\$8.99**

\* Negative rake inserts only

This is

## THE NEXT LEVEL.

As in next level performance, next level technology, next level predictability, next level pricing, next level promotion. You get the idea... YG-1 is offering all these with the market leading steel grade, YG3125 & YG3115. Revolutionary technology resulting in performance and predictability never previously seen.

## New CVD Coated Grade

# YG3125

### New post surface treatment

Reduced chip friction & improved chipping resistance

### New carbide substrate

Enhanced heat resistance & stable edge tool life.

### New MT-TiCN coating Layer

High flank wear resistance

### New Al2O3 coating Layer

Outstanding crater wear resistance

### TiN coating layer

Identified used cutting edge

## First choice for steel application

High production environment, typically found in automotive components at general machining on steels and general engineering.

Optimal for mass production in automatic production line due to the consistent and predictable tool life.

Best choice for both continuous as well as interrupted cuts.

## YG-1 INDEXABLE TOOLS
